

Medical Writing Internship

Global program to connect vibrant authors.

Medicine | Pharmacy | Other Healthcare

In association with Center for Health Research - DhiShi Scientific Pvt. Ltd. for end-to-end research support.

Publishing Is No Longer Optional – It's Your Academic Currency.

The Medical Writing Internship is an intensive 2-month online program curated for early research aspirants, PhD scholars, and postdoctoral researchers from life sciences, pharmacy, medicine, and allied health domains. Designed to bridge the gap between complex scientific research and effective communication, this internship empowers you to write with clarity, precision, and professional finesse. Whether you aim to publish in high-impact journals, enter the field of scientific communications, or enhance your academic career, this program is your stepping stone.
